TELEGRAPHIC BREVITIES

—By the burning of a training stable at Council Bluffs last Sunday night, nine valuable horses and much other property were destroyed.

—All the employees of the Boston steam railroad company talk of consolidating several labor unions into an Assembly of the Knights of Labor.

—In a speech in the United States Senate yesterday, Senator Mitchell of Oregon, was very severe on those responsible for the discontinuance of work on the government canal and locks at the cascades on the Columbia river.

Nevada Theater.

Speaking of the play to be produced here to-morrow evening, the New York *Morning Journal* says: Zitka grows in popularity and continues to draw large audiences at the People's Theater, and it is now certain that the child, Marie Carlton, who was almost an object of charity a few days since, suddenly finds herself an heiress with a good income, as Mr. Miner has made arrangements with her guardian for the payment of a large sum per week for the control of the play for the next 10 years.

The little heiress, now 6 years of age, will visit the theater for the first time Friday evening next. The irony of fate was never more strikingly illustrated than by this case. A despondent father, worn out with repeated disappointments and continued poverty, takes his own life, leaving a destitute child and an unproduced play in the custody of two friends. Mr. Miner decided to take the risk of trying the play. The result is that Mr. Miner secures a very valuable theatrical property and the fatherless child a comfortable fortune. Had the poor dramatist lived to enjoy the fruits of his labor, how different the end might have been.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of the manufacturer. The same is true in this case with "Green's August Flower" and "Boschee's German Syrup," at the reduction of 30 cents per dozen, has been added to increase the size of the bottles containing these remedies, thus making the medicine more economical in the 75 cent size. The "August Flower" for dyspepsia and liver complaint, and the "German Syrup" for cough and lung troubles, have perhaps, the largest sale of any medicines in the world. The advantages of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

Budly Frozen.

Al Dubois, the man who did the shooting at Chat Roberts' last Saturday, is said to have been badly frozen when he arrived at the railroad camp the same evening. A large gang is hunting him, and it is thought he will be lynched if caught.

The Only Perfect Remedy.

For habitual constipation, dyspepsia and kindred ills, is the famous California liquid fruit remedy, Syrup of Figs. It strengthens as well as cleanses the system, it is easily taken and perfectly harmless. Large bottles for sale by Wm. Pinney, Reno, Nevada.

Ayer's Sarsaparilla is the best medicine for everyone in spring. Emigrants and travelers will find an efficient cure for eruptions, boils, pimples, eczema, etc. that break out on the skin—the effect of disorder in the blood, caused by sea diet and life on board ship.

Severely Injured.

A miner by the name of Charles Bennett is thought to have been fatally injured in the Yellow Jacket mine last Sunday by the accidental explosion of a box of giant powder caps. The injured man has a wife and a family of grown sons and daughters living on the Comstock.

Suicide.

Dr. Flint's Heart Remedy has saved more lives by timely use, and has kept from suicide or the insane asylum many victims of rheumatic disorders, than all the physicians with their best methods of treatment. At druggists, \$1.00. Description with each bottle. Address J. Mack & Co., 8 F.

Thought to be Dying.

Rev. Father Nulty, who for many years was pastor of St. Mary's church in Virginia City, is reported to be lying at the point of death at Nevada City, Cal., where he had moved on account of delicate health.

THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife own live to SHILOH'S CONSUMPTION CURE." Sold by Osburn & Shoemaker.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphteria, and Cancer Mouth. Sold by Osburn & Shoemaker.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 20 cents. Sold by Osburn & Shoemaker.

"HACKMETACK" a lasting and fragrant perfume. Price 25 and 50 cents. Sold by Osburn & Shoemaker.

TUESDAY FEBRUARY 22, 1857

A BUSINESS PROPOSITION.

It has been suggested, and the suggestion will in all probability be acted upon this Spring, that a quartz mill of at least forty stamps be erected on the Truckee river close to Reno. Immediately west of Silver City and alongside the Virginia and Truckee railroad are several mines that are known to contain large bodies of free milling ore that assay from \$15 to \$30 per ton. To transport this ore by teams to mills in Gold Canyon, and there work it by the present methods, is found, we are informed, to be impracticable, the costs of mining, such transportation and milling consuming almost its entire yield of precious metals. Among the mines in the locality named that are known to contain large bodies of this so-called low grade ore are the Haywood and Silver Star. Both of these properties are located on an immense ledge, and the shaft of the former is not over one thousand feet from the railroad track, while that of the latter is probably about three hundred feet. Ore houses for both mines could be erected alongside of the track, so that the ore would require no more handling from the time it leaves the mines and is landed in Reno, than is required for that produced from the Consolidated California & Virginia mine and worked at the Morgan mill. We understand that the Virginia and Truckee Railroad Company has offered to ship this ore to Reno for a less sum than it can be hauled for to the mills in Gold Canyon, and the cost of working it here would be materially less than there. The Haywood and Silver Star are by no means the only mines in that locality that are known to contain large bodies of paying ore. There are several others. We mention these two in way of illustration of the feasibility and practicability of the proposition. More mills are required to crush the ore produced from the Comstock and contiguous mines, and that they will be erected on the Truckee close to Reno is highly probable.

THE NAVY.

Among the bills introduced last week in the Senate to increase the Navy, the one of Senator Cameron and the one of Senator Hill have both received the unanimous consent of the Committee on Naval Affairs and are considered as a part of a general plan for the building of a new Navy. These two bills together call for \$27,200,000, and the Senate Committee on Naval Affairs, without distinction of party, has agreed to recommend it. It seems probable that both the bills may pass the Senate and be a suggestion to the House of the position which the Senate is ready to take on the subject of the National defenses. Some ten days ago the Senate passed bills for coast defenses aggregating \$21,000,000, so that it seems probable that the Senate is ready to commit itself to an expenditure of nearly \$60,000,000, but this is extended over six years.

The pay of the members of the Maine Legislature is one hundred and fifty dollars for the session, be it a long one or a short one. A strike was recently made for four dollars a day, but it appears the present salary was satisfactory to the majority, for the measure was voted down.

[PRESS DISPATCHES TO THE GAZETTE]

The Nicaragua Canal Bill.

WASHINGTON, February 22.

During the consideration in the Senate yesterday, of the Nicaragua Ship Canal bill, Vest offered an amendment that the Act shall have no force or effect until a concession shall have been secured from the Government of Nicaragua, and shall have been submitted to and approved by Congress. Rejected without a division. The bill was then passed; yeas 38, nays 5. The bill incorporates the Maritime Canal Co. of Nicaragua, with the principal office in New York city. Capital stock to be not less than \$50,000,000 nor more than \$100,000,000. Ten per cent. is to be payable when the subscriptions to the capital stock are made and future payments are to be made as the board of directors may determine. The aggregate of all charges, dues and towage is to be reasonable; the United States is to exercise such control over the canal as provided for by the treaty with Nicaragua, and not inconsistent with any treaty obligations of the United States with any other power, and is to enjoy its unobstructed use (at half rates) for troops, munitions of war and mails. If stock to the amount of \$10,000,000 be not subscribed and ten per cent. thereof actually paid in within two years, or if the work of construction shall not have commenced and been in progress within four years the corporation shall be deemed to have expired by limitation.

The Day in Washington.

WASHINGTON, February 22.

The President drove out to Oak View this morning and will remain there all day examining legislative matters. He will hold a reception at the White House this evening to the public. Today was generally observed in this city as a holiday. All the executive departments and many of the business houses are closed. Both Houses of Congress adjourned.

Railroad Men in Council.

NEW YORK, February 22.

A committee appointed at a convention of railroad men on the Inter-State Commerce bill met yesterday in Commissioner Fink's office. The classification of the freight rate was the only business considered. The object of the commissioner is to equalize rates over the various roads so as to make them conform to the new law.

Senator Fair's Liberality.

WASHINGTON, February 22.

Senator Fair of Nevada has directed the Commissioner of Agriculture to send 6,500 packages of vegetable seed to the drought-stricken districts of Texas. He contributes all the seeds that have accumulated during his term, except a liberal supply which he has from time to time distributed in his own State.

SAN FRANCISCO, February 22.

Private advices received in this city state that the Canadian Pacific railroad had completed arrangements with the Cunard Steamship Company to transfer three of its fast steamers to the Pacific ocean. The steamers will ply between New Westminster, Hong Kong, and Yokohama. In order to obtain a share of the Shanghai tea shipment. The Indo-Chinese Steamer

Company, a British concern, will cooperate with the railroad company. The vessels of that line will meet the big Cunarders at Yokohama and transfer their cargoes. It is expected that the Cunard steamers, the *Bonita*, *Gallia* and *Scythia* will leave England via the Suez canal, about April 1st, their destination being Hong Kong, so that they will reach China in time to load new tea.

An Unkind Thrust. Samuel.

The Pyke Comic Opera Company will visit Carson next week. Several of the young ladies of the combination will probably make the *Appeal* establishment wear mourning before they leave the town, in retaliation for the blunder made in this morning's issue of that paper, where it undertakes to tell what it knows of their costumes. While they may not object to having it stated that they were born abroad, it is natural to suppose they will not fancy the *Appeal's* way of putting it.

The above will be appreciated upon perusal of the following extract: "Miss Winston's costumes come from Paris, made there by the most reliable costumers—in fact the greater portion of this company were made abroad, and are remarkable for their richness and beauty."

More Snow West.

The Central Pacific road west of Truckee is again cleared of obstructions, and the east-bound train arrived in Reno on time this morning. Reports received here state that up to daylight 24 inches of snow had fallen at Blue Canyon, 18 inches at Emigrant Gap, 22 at Cleo, 20 at Summit, 13 at Truckee and 12 at Alta. Snow is also reported to have fallen at Tehachapi, on the Southern Pacific, to a depth of 8 inches, and at Keene 9 inches.

A Colonization Scheme.

Several prominent Comstockers are working on a scheme to establish a colony of 20 families in Owens Valley. The promoter will entertain the applications of only these heads of families who can put up \$1,500 each, the idea being to raise \$30,000 and take up in the valley named 20,000 acres of land. At least \$18,000 of the money thus raised is to be expended in constructing a large irrigating ditch, the balance to go toward other improvements for the common good of the colonists. The scheme is a practical one, and if properly engineered ought to win.

THE CORTEZ MINES.

Mr. Wenban, the Owner, Unsuccessful in His Endeavors to Deal With the Carson Assay Office—The Mines Bonded for \$1,300,000.

S. Wenban, owner of the famous mines at Cortez, Eureka county, returned home on yesterday morning's Central Pacific express train, after a visit of a week in this city and Carson. While at the latter town Mr. Wenban took advantage of the opportunity to call upon the Assay Office officials and ascertain what disposition he could make of his bullion to the governmental establishment. Superintendent Garrison informed him that he is not authorized to purchase bullion, and could only assay, refine and stamp any that is shipped him. The charges for this service are the same as at the Selby Smelting Works in San Francisco, and consequently Mr. Wenban could see no object in his favoring the Carson establishment, as to do so would necessitate extra freight expenses.

Mr. Wenban has quite a pile of bullion that has accumulated at his mill during the past month or two. At the present time he is working only 18 tons of ore daily. It is high grade, yielding about \$200 to the ton. The mines are undoubtedly the richest discovered in this State in many years, and are bonded to a gentleman representing English capitalists for \$1,300,000. Mr. Wenban is indifferent as to whether the sale is consummated or not; in fact, he prefers to retain the properties, as there is more or less in sight in them to-day than ever. He and his family located at Cortez 28 years ago, when for a long time their nearest white neighbor was distant some 60 miles, and now that his mines, that extend along a range for a distance of over a mile, are meeting his most sanguine expectations he is loth to part with them.

Thought to be Frozen to Death.

Last Saturday J. M. Steinberger, of Willow ranch, accompanied by two other men, started out on horseback deer-hunting. They became separated and towards evening Mr. S. and one of the men returned to the ranch and the riderless horse of the third man got in some time during the night, and as the weather was intensely cold it is thought the man must have perished.

PEN PORTRAITS of the Law-makers of the State of Nevada.

HON. E. D. BOYLE,

Republican Senator from Storey county and chairman of the State Central Committee, is a boldover and certainly one of the most popular gentlemen in that body. He has one of those ever pleasant countenances one is always glad to gaze upon while his complexion is the personification of good health. He was born in Ireland, that little island which was contributed so prolifically to the long list of distinguished men who grace the annals of American history. He is far above the average height and well proportioned. He is in his 51st year, is married and is the happy father of three children. By occupation he is a mining superintendent and is regarded throughout the State as being one of the best mining experts within her limits. An unassuming, pleasing, easy-going, unpompous disposition endears him to the workmen, while his education, suavity and gentlemanly demeanor in more elevated circles of society, enable him to hold his own with the most polished in the land. His hair is gray and he wears a large, handsome (military) gray mustache. He is straight as an arrow and very much resembles U. S. Marshal General M. T. McMahon of New York, though not quite so tall. His eyes are true Irish blue and are full of expression and good nature. His ears are aristocratic; being about the average size, but round and clear cut, denoting order, system and a mathematical turn of mind. I should judge that in calculation he is an adept, while to this I must add that the good things of this life are not strangers to his palate. Among his colleagues he is highly respected because of the brevity of his remarks. He has all the keen wit and sarcasm of his race but seldom indulges it. His reply the other day to a well-known Senator, to the effect that he should, referring to the Senator aforesaid, understand the measure under discussion because he (the Senator) had voted on both sides of it, best illustrates his readiness in debate. He is a good parliamentarian and enjoys the unequalled distinction of championing all such measures as are not tainted with demagoguery. He believes implicitly in the institutions of our common country and as a Republican feels proud of his consanguine connection with the family of the "Plumed Knight." Colonel Boyle on his mother's side is related to the Gillespies, and the story is simply told by saying that the foremost man in America today is Hon. James Gillespie Blaine. Mr. Boyle is generous, attentive and always in good humor.

LIEUTENANT GOVERNOR HANK C. DAVIS,

Of Winnemucca is so well known and popular throughout the State, that I approach a portrait of him with much diffidence. Should I make a mistake in my measurement of his character, I am liable to be tripped up by every conductor and brakeman in the commonwealth. However, I will attempt it. He is a tall, stout, well-proportioned gentleman, weighing possibly over 200 pounds avoirdupois. He has a ruddy complexion, his cheeks being as red as two June roses. He has a round, full face guarded by exceedingly large ears with heavy lugs, indicating an over abundance of good nature. In fact I should judge that that is his main weakness. He has a pair of sky-blue eyes, large and full of expression—eyes that say their owner is domesticated in his habits and a fond lover of home. His hair is just turning gray and he has a plentiful quantity of it. A large gray mustache graces his upper lip, while above it the face is made more interesting by the presence of nose that combines the Grecian and Anglo-Saxon characteristics. Underneath lies a chin that, though not broad, has sufficient in it to imply that there is a purpose and deliberation in everything he undertakes; so much so that he will not embark in any enterprise without he has fully made up his mind to do so, and then it will be to win. In the late canvass his popularity was never questioned and many, among whom your correspondent, openly assert that he contributed more largely towards securing a Republican victory, than any other gentleman who sought the franchises of his fellow citizens. Not having any experience outside the lodge room as a parliamentarian, predictions were numerous as to the failure that would attend his presiding over the deliberations of the Senate. However, he has been actively and attentively engaged in acquiring the necessary information, and now in the closing hours of the session, it must be said to his credit, that there has not been an appeal taken from any decision he has thus far rendered. He, compared with the presiding officer of our sister State of California, stands just in the same positions as does Speaker Carlyle to Wells Drury. On the whole, Governor Davis is a whole-souled, generous gentleman—one who is not averse to a participation in the good things of life and one from whom the smallest boy in the streets finds as warm a greeting as does the biggest nabob in the land. He will never give his friends cause to regret his elevation to the Lieutenant-Governorship.

HON. JNO. O. TWISS,

Republican Assemblyman of Lander county, is one of those hardy able-bodied men endowed with considerable horse sense and more than an ordinary quantity of physical strength. He is above the medium

height, has brown hair and mustache with a full broad face. His forehead is high and no doubt indicates that if he had enjoyed educational advantages he would have figured conspicuously in the literary world. As it is I must just measure him on the line he travels upon at present. His eyes are gray blue, with the former predominating, indicating that their possessor from childhood has been fond of wandering and I think much preferred sea-faring life to that of the "land lubber." His nose is broad at the base, but otherwise thoroughly American. A very broad chin covers his determination while his ears lie close to his cranium tell you plainly that thrift and economy are no strangers to him. He would make a first second officer in any emergency because any service entrusted to him would be honestly, faithfully and conscientiously discharged. In the Assembly he has been rather modest, but very attentive to its deliberation and votes in accordance with the dictates of his conscience. I think when once he makes up his mind to vote on a measure, it would be just as easy to move Mt. Olympus from its base as to change his determination. He has a genial disposition, is full of anecdotal love and loves to tell of his past experiences. He recently married a lovely young lady, Miss Catharine H. Hudson of California, with whom, if he will be as happy in the long race of marital life as he has been in this body, neither will have any cause for complaint and Lander county will be well satisfied at the culmination.

HON. W. G. LYONS,

Republican member of the Assembly from White Pine county, is a tall, elderly looking gentleman, and with Mr. Beebe of Eureka, is the only gentleman who voted for Hon. Thomas Wren for the U. S. Senate as against Hon. Wm. M. Stewart. He is, from all appearances, a man of great positiveness; one not to be swayed by glib representations dropping from oily tongues. He is always in his seat and keeps a close eye on all bills under consideration. He is not given much to talking, but whenever he does rise to speak, it is on a matter with which he is thoroughly familiar and generally his remarks carry conviction with them. His hair is quite gray and plentiful. He wears a heavy beard and mustache tinged with gray which gives him a venerable appearance. He is a handsome gentleman of 56 years and still single. He wears glasses over a pair of gray-blue eyes and has a straight American nose with a good base. His chin indicates firmness, rectitude and good clear judgment. The former conclusion must be construed to take in a heavy set of eyebrows and they invariably indicate strength and observation. His whole face bespeaks for him respect and admiration. He is both a miner and rancher but my impression is that his tastes are eminently literary and if he followed the bent of his youthful inclinations, might to-day hold a professorship in some philosophical institution. He has large, long and prominent ears with heavy lugs betokening good nature and good fellowship. He does not "bob up and down" as some of his colleagues are wont, but is more content to vote "intelligently." He don't appear to have a great fondness for political life, but on the contrary I think is more content among his books at home than listening to the rhodomontade of some of his colleagues. He is a faithful, conscientious and tireless worker for his people. Send him back White Pine.

A Remarkable Cure.

Mrs. Charles Hart of Amityville, Suffolk county, N. Y., writes as follows of the remarkable cure of a peculiar pain in her back: Four years ago I was attacked with a severe pain in the spine, close to the small of my back. It was especially painful going up or down stairs. After using over 10 remedies and consulting half a dozen physicians without any benefit, my husband applied an Alcock's Porous Plaster directly over the seat of pain. I kept it on a week and I fancied I was a little better, but was not quite sure. I then put on a fresh one. At the end of a week my husband noticed that the Plaster was puffed up in the middle. Upon taking the plaster off, a hole about the size of a quill was found, which discharged yellow matter very freely. Another plaster was put on with a good size hole in the center of it, to enable the matter to escape. The plaster appeared to draw with great power, and the discharge increased every 24 hours, a little. At least a pint of matter was discharged from the wound before I got entirely well, which was exactly five weeks from the time I put the first plaster on. I used altogether 11 plasters, and thanks to them I have not since had an ache or a pain in my back.

Physicians Have Found Out
That a contaminating and foreign element in the blood, developed by indigence, is the cause of rheumatism. This act upon the sensitive substance, covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous, chalky deposit which produces stiffness and distortion of the joints. No fact which I experience has demonstrated in regard to this disease, that it is not only curable, but shows evidence to support that this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to treat it. Since this medicine contains only salutary ingredients, it is a signal remedy for malaria fever, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders, see that you get the genuine.

News From Her.

Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; I have dressed myself with help, now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Biters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50¢ at S. J. Hodgkinson & Co.'s drug store.

Twin Foes to Life

Are Indigestion and Constipation. Their primary symptoms are among the most distressing of minor human ailments, and a host of diseases, speedily resultant from them, mutually aggravate each other and assail at once the whole machinery of life. Nausea, Foul Breath, Sour Stomach, Dizziness, Headaches, Bilious Fever, Jaundice, Dyspepsia, Kidney Diseases, Fluxes, Rheumatism, Neuralgia, Droopy, and various Skin Disorders are among the symptoms and maladies caused by derangement of the stomach and bowels.

A Thorough Purgative

medicine is the first necessity for cure. Then the cathartic effect must be maintained, in a mild degree, just sufficient to prevent a recurrence of constiveness, and at the same time the liver, kidneys and stomach must be stimulated and strengthened.

Ayer's Pills

Accomplish this restorative work better than any other medicine. They are searching and thorough, yet mild, in their purgative action. They do not grip the patient, and do not induce a constive reaction, as is the effect of other cathartics. Within, they possess special properties diuretic, hepatic and tonic, of the highest medicinal value and

Absolutely Cure

All diseases proceeding from disorder of the digestive and assimilatory organs. The prompt use of AYER'S PILLS to correct the first indications of constiveness averts the serious illnesses which neglect of that condition would inevitably induce. All irregularities in the action of the bowels—looseness as well as constipation—are perfectly controlled by AYER'S PILLS, and for the stimulator of digestive organs weakened by long continued dyspepsia, one or two of AYER'S PILLS daily, after dinner, will do more good than anything else.

Leading Physicians Concede

Married a Board of Trade Man.

A young woman with tightly pressed lips and a gleaming eye sat upright in one of the seats of a West-bound train. She appeared to be mad, and the other passengers eyed her curiously. Presently a near-sighted man came along, sat down beside her, and, after a while, began with:

"Got far to go?"
"Yes, too far," snapped the young woman with the gleaming eyes. But the near-sighted man returned to the attack with:

"Been up to Chicago?"
"Yes, I've been up to Chicago."

"Visiting friends, I suppose?"

"No, on business."

"Married?"

"Yes, I am."

"And where is your husband?"

"Chicago."

"What's his business?"

"His business is none of your business, you impudent dude. But when he came down to our place, putting on style and sparkling me, he said he was a Board of Trade man. Yesterday I went up to Chicago and called at his office."

"Then he's a Board of Trade man. Is he?"

"Yes, he's one of the janitors. I'd like to skin him, the wretch. But what is this to you, I'd like to know?"

"Ah, excuse me; here is my card. Should be happy to serve you. I'm a lawyer on Clark Street, and my specialty is divorces. Laughing gas administered, and alimony extracted without pain. Call and see me."—[Chicago Herald.]

Risky, but She Got There.

"John" she said to the young man who had been courting her for five long years—"John, I sat for my photograph to-day. I suppose you want one?"

"Oh, yes, indeed."

"By the way, John, I had them taken especially for some friends in California, and they want my autograph on the cards. Now, John, I don't know whether to sign my maiden name, or wait a few months until after I am married. I suppose you do intend to get married in a few months, don't you, John?"

It was a desperate move, but she won, and in two months both will be made one.—[Philadelphia Herald.]
